

Do you like gingerbread? Today we will make a very cute [gingerbread amigurumi](#). Don't get me wrong, we will not cook, we will only crochet. :). First of all, welcome to my blog. Today I am going to share the crochet gingerbread amigurumi pattern for free. A very cute and advanced amigurumi pattern. For beginners, the gingerbread amigurumi pattern I shared earlier may be more appropriate. This kind of doll

amigurumi is as difficult to crochet as it is to design. In this [doll amigurumi](#) pattern, I think the hardest part is the hat. After you have carefully crocheted the hat, the rest is very easy.

You can find all the parts on the pattern in the description section. The person who designed the material and rope brand did not share. I don't think it's necessary. Because standard threads are used. I think it will be enough to pay attention to the color of the threads. I explained step by step how to make [crochet](#) gingerbread. I hope you like. Now let's crochet the gingerbread [amigurumi](#) step by step.
