Assembly

We sew a muzzle between 6 and 13 rows.

We do a stretch.

We insert a needle with a yarn of the main color at point A, bring it out at point B, then to point C, bring it out again at point A, then we insert it at point E, then to D, from there immediately to D and again to E. Repeat 2-3 times .

We make eyes, embroider proteins with white yarn, black eyelashes. Embroider nostrils, mouth, eyebrows with brown yarn.

We sew horns between 21 and 25 rows.

Ears below 2 rows from the horns.

Next, we make out a hairstyle – a mane.

We cut off the required amount of brown yarn, about 8-10 cm each and attach it to the loops with a hook.

When the mane of the desired density is ready, we trim it with scissors and feel like hairdressers. :))
