Hello dear friends. Today I will share a cute [crochet cat pattern](#). This pattern is quite different from the other amigurumi cat [patterns](#) I shared. We know that [crochet](#) animal amigurumi patterns made using velvet yarn look very aesthetic. That's why I will try to share plush amigurumi patterns made with velvet rope whenever I have the opportunity. The pattern is a bit difficult for beginners. It's actually not that hard, but it's pretty long. Because the amigurumi is pretty big. We know that the details are important when working with amigurumi crochet. Details in amigurumi animals made with this type of velvet thread greatly change the duration of your work. For example, the fact that the paws of the crocheted cat have a different width than the arm requires you to work a little more carefully in that part. Without further ado, let's get to the design. Now let's crochet the [cat amigurumi](#) step by step.

Assembly:

Sculpt the eyes and mouth sockets.

Thread the needle with a thread that matches the yarn color and insert the needle under the muzzle. Draw it out at the outer corner of the eye. Insert it at the inner corner of the eye and draw it out under the muzzle (to the initial point).

Skip 1 stitch and repeat with the other eye. Repeat 2 times.

Weave ends and hide the yarn tail inside.

Sculpt the mouth socket between rounds 32 and 33.

Watch a video on my page on how to sculpt the muzzle.

- embroider the upper eyelid and eyebrow using black thread;
- embroider the strip from the nose up to the mouth and embroider the whiskers;
- Sew the ears (between rounds 42-47) using the thread that matches the yarn color.

The distance between the ears is 5-6 SC.
