Cut the yarn leaving a long tail to sew the first side of the pumpkin.

With yarn needle, weave tail along one edge around. Put the tail tight and cinch this end closed. Tie a knot and cut yarn.

Turn the pumpkin right side out and stuff.

With a long tail, close the other side in the same way you closed the first one.

With the remainder of tail, go through the middle of the pumpkin from one side to the other and tug tight to create the ridges. Secure yarn, tie off and cut yarn.

Sew the stem to the middle of the top of the pumpkin.

Sew the pumpkin to the middle of the body of the snail.

Use a brown pen or eye shadow to draw the eyes on the top of feelers.
