

Hello dear friends.

Today we will crochet a very cute and magnificent bat amigurumi. A fairly new and special amigurumi [pattern](#). It is not designed exactly as a bat and it is a design that children can love. I

think the blue color is the right color for crochet bat amigurumi. You can choose light-toned colors, but I do not recommend choosing dark colors such as black.

How to make amigurumi step by step is clearly explained in the pattern. An [animal amigurumi](#) made using already very simple [crochet](#) techniques. Children love this kind of doll amigurumis and their fear of animals such as bats is reduced. There is no part of this pattern that can force you. A very easy [amigurumi](#) pattern. It's pretty cool and pretty easy for beginners. Now let's crochet bat amigurumi step by step.
