

Hello to everyone,

The best surprise of the day is Little Bird Amigurumi patterns. You can make the [free pattern](#) in any color you want. I have added pictures of different crocheted models for you. For

the amigurumi bird pattern, you can choose light-colored yarns. It will make the [crochet bird](#) look very cool.

Little Bird is very easy to make. [Amigurumi bird](#) body is round and two colors of yarn are preferred. A flower pattern is made on the head of the amigurumi bird. The flowers were crocheted separately and added after the pattern was completed. Making the eyes is very simple. Feather has been added to the body of the amigurumi bird. The wings were added to the toy after being crocheted. The tail is crocheted together with the body. Little Bird amigurumi free pattern.

Are you excited to prepare the most beautiful flower models 😊

Flower:

Crochet 13 chain stitches. Start to crochet into the 4th stitch from the hook:

- 1 dc, then you need to crochet 2 dc into every stitch.

Cut the thread off, leaving a long tail for sewing. You need to roll up the detail, forming a flower.

Gathering:

You need to sew wings only from above, from one point to another one. One wing is in place of colour's change.

Sew the tail between 19th and 20th rounds.

And add a little fiberfill to the neb. Sew the neb between 8th and 11th rounds. Look at the wings to sew the neb on the center.

Embroider the eyes on the 9th round. Than embroider the cheeks. Than you'll add feathers: it means you need to embroider check marks in chessboard order on the bird's belly.

Twist the detail, forming a flower. Using a needle you take the thread down to the base of the flower. Sew through a few times in different direction. Than fasten the thread off, don't cutting.

Sew leaves on the bottom of the flower, fasten them off and cut the thread off. I sewed 2 leaves.

Sew the flower to the bird's head. I sewed the flower a little sideways.

Congratulations! Now you have a little bird!
