Dear friends, hello to all of you. Looking for a beautiful panda pattern? Today I am sharing a very beautiful amigurumi panda pattern. I hope you like this design. The pattern is quite small. So it will be easy for you to do. When you complete the pieces will be 7.5cm in size. A very cute panda. You can use different colors. It is also an [amigurumi](#) that you can use as a keychain. You can also use it as a different decoration item. Depending on the yarn you use, the appearance will change. You can get the same character if you use the same strings.

Panda, as you know, is a very cute animal species that lives in China and is endangered. You know pandas are vegetarian. They usually feed on bamboo and spend most of the day feeding. Today's panda teddy [bear amigurumi](#) pattern is quite easy. It actually looks more like a keychain pattern. More precisely, you can use the [doll amigurumi](#) as a key chain. You can make different designs about the color of the crocheted panda, of course, the choice is yours. The pattern is completely free. Now let's [crochet](#) the panda amigurumi step by step.

Assembling

Embroider the nose between rows 9 and 10, the length of the nose is 3 stitches.

The eyes are sewn on over the spots at the same level with the nose, the distance between points where the eyes are sewn is 9 stitches (see the picture above).

I fix the position of the eyes with pins. First sew the spots, then the eyes. Embroider the whites of the eyes.

Sew the ears on the top.

The arms are sewn on between rows 14-16 a little bit closer to the tummy. The legs are sewn

on the both sides below row 24 using a thread joint. If you crocheted with some fluffy yarn,

use the velcro tape to comb the toy and make it fluffier.

The size of the finished toys made of Drops Alpaca, Drops Nord or Drops Safran is about 7,5 cm (3 inches).

Your little panda is ready!
