

Hello dear friends, today I will share the crochet rattle [giraffe amigurumi](#) pattern. Although it is quite easy, when you finish crocheting, you will have a very beautiful [doll](#). Crocheted rattles have become very popular lately. The most important factor in this is that babies can play comfortably.

A wooden ring is all you need to make the **rattle** giraffe. These rings usually have a size. You need to shape the amigurumi giraffe according to this size. The most important part that you should pay attention to when crocheting [Giraffe](#) Amigurumi is the part where the amigurumi is combined with the ring. You need to [crochet](#) tightly enough. I tried to explain how to do it step by step. I hope you will like it. Now let's crochet the rattle giraffe amigurumi step by step.
