Hello dear friends. Recently, I started to increase the shares of **keychain amigurumi** patterns. Especially women who are interested in the art of **crochet** amigurumi started to prefer this type of crochet keychain. In addition, it can be a little difficult to find such small amigurumi patterns. This cute bear amigurumi is completely free. Depending on the quality of the rope used, the shape of the toy you will make will change.

Animal amigurumi is one of the most popular types of **amigurumi**. Dolls can be much easier to make than amigurumis. The keychain teddy bear is quite small as you can see and the pattern has all the details. It's explained step by step how to do it. There is also a video. If you wish, you can watch the video and see how it is done. Now let's crochet the keychain teddy bear amigurumi step by step.
