

Hi friends, today I will share a nice cat [amigurumi](#) pattern for beginners. Although it is a slightly detailed [crochet cat](#) pattern, overall it is a simple amigurumi. The size of the amigurumi is approximately 6 cm. To summarize, it is quite simple and useful. You can use this type of amigurumis both as a [keychain](#) and as a small gift.

Usually girls like these toys. So it can be a nice gift for girls. I want to talk about a few very simple details. Nose and ears. The inner parts of the ears are made with pink color, thus creating a nice appearance. In addition, the tip of the nose is made with a different color in the same way. I continue to share free animal amigurumi [patterns](#). Now let's crochet the cat amigurumi step by step.

- 3 – sew on the muzzle on 9-12 rounds, embroider a nose in the middle with a pink thread.
- 4 – sew on the head on 4-6 rounds of the body using the remaining thread.
- 5 – sew on the paws: front legs on 5-7 rounds of the body, hind legs on 13-15 rounds of the body. I recommend to attach the paws with pins before sewing to check if the kitten is steady.
- 6 – sew on the tail at the back of the toy, hdc stitches look up.

- 8 – collar – make 17 ch (or a different amount needed for your toy), tie around the neck, weave in the ends inside the toy.
