Hello to everyone,

The most beautiful crochet for Easter day will be this bunny toy. You can read how to crochet the [amigurumi](#) pattern in detail in the description. When the amigurumi free pattern is completed, you can give it to your loved ones as a gift.

Roger the easter rabbit amigurumi toy is very easy to make. I really liked the baby bunny pattern inside the egg mold. Amigurumi rabbit's ears are large. The colors of the ears are crocheted using blue yarn. The inside of the ears of the amigurumi toy is crocheted with yellow yarn. The head and body of the free pattern are crocheted with blue yarn. [Amigurumi bunny](#) has a chocolate colored egg in his hands. The eyes and mouth are easy to [crochet](#). The leg of the rabbit is slightly different from other toys. To make this part, we make eggshells. We sew the leg and tail on this eggshell. You will love it when the Amigurumi free pattern is complete.

R10. 3dec (3)

Sl st and fo closing the little hole

17

Assembling

EARS: sew them in the middle of the head from R1 to R3

18

19

FEET and TAIL: put the rabbit inside the eggshell and with pins mark where you want to position feet and tail and see them

ARMS: place them on the side of the body, at 2 rows of distance from the head

Embroidering

- Embroider eyes with thinner black yarn between R11 and R12
- See next page for more photo tutorials (the yarn used there is just an example, I then changed to a thinner yarn because I think it gives a better result)
- Embroider nose with pink yarn above the teeth

- Embroider between R14 and R15 and between R15 and R16, 3 st long

Eyes embroidering
