Black would be a good choice for color selection. However, I would prefer white color instead of yellow color. I think it is a very right choice to simply make the whiskers after making the [crochet cat](#). Such small additions add a nice air to your work. We continue to share [crochet animal amigurumi patterns](#) for free and as pdf. Now let's crochet the cat amigurumi step by step.

- Yarn (Pekhorka "Children's volumetric")

You can take any yarn for crocheting cats.

The one you love or the one that is available.

If you do not want to crochet tabby seals, crochet a monochromatic one.

 - Sew the muzzle between 12-16 rows, adding filler to it.

– We embroider the nose, mouth, antennae.

3. Move the ears, choose a good place for sewing.

4. Sew the upper legs on the sides of the body.

5. Along the line of the middle of the back, between 23-24 rows we sew a tail

6. If the yarn is fleecy, you can comb the cat. I will comb it with a piece of Velcro that comes in for fastening clothes.

Everything. Now the cat is ready. We kiss him on the nose and give him a name.
