Assembly

Begin with Benny's face:

- put safety eyes between R 8-9, 4 stitches apart.
- embroider the nose with <> shape
- Row 9 of the head is where we are going to sew the cheeks, that's why it's better to stuff them with fiber to make them chubby.
- Before sewing the tail, I recommend passing the thread through the stitches to close the hole and make it easier to sew.
- embroider the forehead with white thread as in the picture
